Dear Sirs

I understand you are to sell me Charles Monis' collection of Communion tokens shortly. Will you kindly send me the Catalogue when it shall be ready I should very much like to know when the sale is to come off as I expect to be away from home during the month of November.

There are only five or six tokens in the Collection. I want but if the tokens are to be lumped together I am afraid I could not bid high as I do not want the others having too many duplicates as it is

I bought Leroux's collection
shortly after he died, but only
got a few coins and medals
I wanted from it. The balance
is for sale some 1200 or 1300.
Nothing very rare Do you want
to purchase?

Yours truly
Rundbacklan
